## Democrat Tries to Force Resolution for Dismissal Of Secretary Ballinger

SEC BALLINGER

MINNEAPOLIS, Sept. 7.—At an executive meeting of the Ballinger Lynch Investigating committee today, Senator Duncan W. Fletcher of Florida, a Democrat, introduced a resolution holding that the secretary of the interior was an unfaithful public officer and should be removed. Representative Madison of the Republican insurgent from Kansas offered a substitute resolution holding that the charges which had been made by Gifford Pinchot and Louis Davis, a former chief of a field division of the general land office, were unfounded. Representative James (D) of Nevada offered an amendment to the Fletcher resolution, providing for the removal of Ballinger from office and Mr. Madison accepted the amendment. The vote came up on the substitute of Mr. Madison as amended by the vote of Mr. James and the roll was called. Those voting for the substitute were: Senators Fletcher, W. L. Fletcher, of North Dakota, a Democrat, Reuben A. Lee, Jan. S. Graham of Illinois, Tom L. Campbell of Minnesota, Republican, and Representative James. Those voting against the substitute were: Senators George S. Shreve and of Illinois, Kepner C. Allen and of Kansas, Samuel W. McCall of Massachusetts, Republican, and the committee from each of the states. The committee members replied that they had no objection to the resolution. The vote came up on the point of order that the committee should be allowed to report. The committee reported in favor of the resolution. ## Senate Refuses to Confirm Appointment Of W. G. Henshaw

SACRAMENTO, Sept. 7.—The Senate, by a vote of thirteen to twenty-two, refused to confirm the nomination of W. G. Henshaw of Oakland as a member of the Fish and Game Commission.

SACRAMENTO, Sept. 7.—After the failure of the Senate to confirm Henshaw's appointment, Senator Leavitt explained his vote in favor of confirmation by saying: "I voted for Mr. William G. Henshaw because I have known him for a number of years as an honorable gentleman, a man of ability, integrity and high mindedness, and because I knew he was certified to fill the position. In the second place, I have never heard a single word ever said against his integrity and I have heard to reason given why he should not be confirmed. I have no objection to any man voting according to his conscience, but I do object to petty politics."

## George Reed Confirmed

The Senate has confirmed the nomination of George W. Reed of Oakland as director of the California Institute for the Deaf, Dumb and Blind by a vote of thirty-two to nothing.

## United States Wins In Fisheries Dispute

THE HAGUE, Sept. 7.—The United States has won a victory in the fisheries dispute with Great Britain. The decision was handed down today by the International Court of Arbitration. The court ruled in favor of the United States, stating that the United States has the right to fish in the waters off the coast of Great Britain.

## ROOSEVELT IS SPURNED BY MILWAUKEE MAYOR

Seidel Bitterly Arraigns Guest of Honor for Criticizing the Socialists.

EXECUTIVE REFUSES  
TO GREET COLONEL

Former President Stands Behind Sentiment Expressed in Outlook Article.

MILWAUKEE, Sept. 7.—Soon after Colonel Roosevelt arrived here today and before he sat down to breakfast at the Hotel Bristol, he found himself involved in a controversy with Emil Seidel, the Socialist mayor who had declined to act on the reception committee which welcomed the colonel to Milwaukee. In a contribution to the Big Stick newspaper, published by the Milwaukee Press Club for this occasion, Mayor Seidel greeted Mr. Roosevelt as a "Socialist enemy" and the same terms which he expressed in his magazine article of March 20, 1909, it is clear that he cannot serve the cause of honesty and decency in an American political life.

DEFENDS SOCIALISM  
It is possible that I have misunderstood the article, said Mayor Seidel, but inasmuch as I am a Socialist and he has designated Socialism as a thing which is against morality and religion, I cannot but feel that I am in a position to defend Socialism. I am not a person connected with his reception in the city.

MAKES UGLY CHARGES  
Charging he colored with a cunning and deliberate purpose to create a false impression, he declared that the visitor could lay no claim to the right of preaching either morality, religion or civic righteousness.

## Frank McCarthy Pleads Guilty to Stealing Horses; Weeps

Tearfully pleading guilty to grand larceny and declaring with emphasis that unless he was sentenced immediately to the penitentiary he would commit suicide when he was returned to his cell in the county jail, Frank McCarthy, 23 years of age, hastened judgment in his case this forenoon in the criminal department of the Superior Court. He asked Judge Ross to give him a light sentence but in view of the fact that a prior conviction for the same offense stood against him, the court was compelled under the law to give him the maximum penalty which was ten years.

Police on Trail of Men Sus-  
pected of Starting Big  
Conflagration.

Four families were placed in jeopardy and cottages and personal belongings valued at \$2,000 destroyed by a fire at Forty-second and Georgia streets, Minneapolis, last night believed by the district and city residents of the district to have been of incendiary origin. Captain of Detectives W. J. Petersen has one of his men working on the case and it is anticipated that an arrest may be made today.

CLUE IS SLIGHT  
The clue upon which the police are working is so slight that they refuse to give out any information that would implicate any of the people who might be concerned. The belief that the blaze was started by a firebug is based on the fact that nothing has been brought forward to explain its cause and a number of mysterious circumstances surround the case which suggest that it was not an accidental blaze.

MYSTERIOUS ORIGIN  
The fire started mysteriously in the rear of one of two cottages owned by Frank McCarthy at 1412 Georgia street and spread to the second cottage owned by him at 1410 Georgia street. The flames had spread to the third cottage, a colored man, who was living in the third cottage, was seen to be carrying a large sum of money, and it is believed that he was the same man who was seen in the hills near the town of Mopac, Ariz., last night. He was seen to be carrying a large sum of money, and it is believed that he was the same man who was seen in the hills near the town of Mopac, Ariz., last night.

## 3 Arrested for Driving Heavy Teams Upon the Boulevard; More to Come

Pigged enforcement of the city ordinance against heavy teams on the boulevard has been ordered by the authorities and a number of arrests resulted today with the probability of many more before the material men and owners decide to stop using the boulevard. Officer Kahler has been stationed at the boulevard and this morning arrested Oscar Huebner and R. McClure at the boulevard and first avenue and William Joseph at boulevard and South street.

## Warner Fails to Appear Before New Grand Jury to Give Proof of His Charges

Adam Dixon Warner, who was indicted by the grand jury for the murder of a woman, failed to appear before the new grand jury today to give proof of his charges. Warner was seen to be carrying a large sum of money, and it is believed that he was the same man who was seen in the hills near the town of Mopac, Ariz., last night. ## Rev. Vosburgh Called to Duluth Baptist Church

Rev. Homer I. Vosburgh, pastor of the First Baptist church of this city, who celebrated his ninth anniversary today, was called to Duluth, Minn., to preach at the church there. The congregation at Duluth is one of the largest Baptist congregations in the state and the Rev. Vosburgh is a well-known and respected minister. He will carry on correspondence with the Duluth church.

# REPUBLICANS OUTLINE THEIR COMING CAMPAIGN AND ADOPT PLATFORM.

## STATE G. O. P. ADOPT LONG PLATFORM IN BIG STATE CONVENTION ACROSS BAY

Continued Allegiance to Party Declared Among Policies That Include an "Unswerving" Allegiance to Protection Principle

Meeting Goes on Record as Stating That the "System of Direct Primary Nominations Has Justified Itself by Results"

SAN FRANCISCO, Sept. 7.—Wildly enthusiastic over their proposed reforms, ready with cheers and handclaps for their leaders and favorites, and determined that their party ticket shall achieve a signal victory next November, the members of the Republican state convention met yesterday and last night in Lyric hall for the first time under the direct primary law.

As early as 1 o'clock in the afternoon nearly every seat in the Auditorium had been taken by visitors and delegates, and long before the evening session at 7 o'clock the place was packed to the doors. In the throng were numbers of women, many of whom were well content to form a part of the close jam in the aisles rather than miss a word that was spoken or fall to yell or cheer at the psychological moment.

**ADOPT PLATFORM.**  
A platform composed of twenty-two planks, backing to the last the policies of Roosevelt and Taft, and embracing multitudinous other recommendations was adopted, and the word was passed along by Chairman Chester H. Rowell that it would be carried all over the country, and be published in every city and town in the United States.

The platform contained an endorsement of the Panama-Pacific Exposition and recommendations for anti-trust laws, non-partisan judiciary, oriental exclusion, a return to the pure Australian ballot system, the abolition of the party circle on the ticket, and changes in the punishment and confinement of prisoners and the methods of criminal procedure.

**MCNAB STARTS ROW.**  
The only real fireworks during the session came just prior to the actual adoption of the platform, when John McNab of Ukiah mentioned, prior to the primary campaign of last month, as a possible new gubernatorial candidate, an attempt to insert a plank in favor of President Taft. He had some difficulty in even obtaining a hearing, but finally secured the privilege of offering a resolution, although the meeting was interrupted by cries and cat-calls from disturbers anxious to avoid any chance in the arrangements or any friction tending to upset the majority in power.

**RESOLUTION TURNED DOWN.**  
McNab's resolution, which was voted down without much ado, was as follows: "Resolved, that we unqualifiedly endorse the administration of William H. Taft. We honor him for his heroic struggle for the fulfillment of his pledges, and believe that a continuation of his patriotic services will entitle him to a re-nomination at the hands of his party."

**CANDIDATES CHEERED.**  
The introduction to the convention of A. J. Wallace, candidate for lieutenant governor, in the afternoon, and Hiram Johnson in the evening caused a furor among the spectators, and cheers and yells prevented their speaking for nearly five minutes after they reached the speaker's table.

**WALLACE SPEAKS.**  
Pending the report of the committee A. J. Wallace, Republican candidate for lieutenant governor, was introduced and enthusiastically received. He spoke as follows: "Mr. President and Gentlemen: Somebody has said that when one has done a good thing the worst thing to do is to

world to do is to be ever looking back toward it. When there is a 16th of August we must not look back too long on it, but must look on to the 8th of November."

"We are here as Republicans, holding our heads up straight and strong. I know nothing but Republicans. All voters are Republicans. I am glad to think of the Republican party and the things that it has done."

**PREDICTION OF VICTORY.**  
"When voting on November 8, remember everywhere the Senate and Assembly, and have it entirely and strongly Republican. Some one has said that the year 1910 will be a year to be remembered. When one speaks of great campaigns that are made he will compare them to the Johnson campaign. Few men realize what it means, month after month, for more than half a year, to campaign the state. Not one man in a thousand could stand it physically. Not one man in 10,000 could do what this man accomplished."

**HAVE JUST BEGUN.**  
"Down south we have only begun to vote. We have felt toward Johnson that he was doing our work. We will carry it to victory. We are working for mighty majorities. We will soon be shaking hands with Iowa, Kansas and Wisconsin, and climbing the foothills to catch up and place our hands on the shoulders of that great man whose name never quailed before the kings of Europe or the kings of Wall Street. We will say 'Great lead in California, we follow.' (Cheers.)"

Leo Gates of Los Angeles was also well received and made an interesting and enthusiastic address.

**TELLER OPENS CONVENTION.**  
It was but a few moments after the reported hour that the convention was opened in the afternoon by chairman of the State Central Committee Phil S. Teller. After a few introductory remarks in which he gave it as his opinion that the Republican party would win a great victory at the next election, he called for nominations for temporary chairman and Chester H. Rowell of Fresno was immediately presented by Marshall Stimson and seconded by Guy L. Earl of Oakland.

"Alameda county," said Earl, "finds itself proud to place a laurel wreath upon Chester H. Rowell."

**OUTLINED THE CAMPAIGN.**  
The temporary chairman took his seat on the platform at once. The assembly had cheered to the echo as he talked up the alms from a place among the speakers. His speech was well received and full of interest. He outlined the course of the recent campaign, dwell on the results which have been achieved, and ended by asserting that there was nothing left to do but elect Hiram Johnson governor of the state of California.

**ROWELL'S SPEECH.**  
In assuming his office Temporary Chairman Rowell said: "Gentlemen of the Republican state convention of California: 'I am glad to have received this gavel from the regular chairman of a regular state committee as a symbol of regularity in California and to greet you, the representatives of the regular Republican party of California. We have had our primary contest as the law required we should have it. That con-

vention is settled and former regulars and former insurgents join the common cause under the banner of progressive Republicanism."

"There are those who worked for those who won and those who did not think it their part to fight for them. But these are satisfied with the result of that fight and all have joined with all those who did take an active part in it, in going in to make the Republican party what it is today. The Republican party is worth standing for, worth working for, even worth reforming, if it ever needs it."

**AGAINST VESTED WRONG.**  
"The Republican party started as an insurrection against vested wrong and has gone on in after years until it has become responsible for principles that have been adopted and have made the last 30 years the greatest 50 years in the history of any nation in the world."

"The Democratic party has been a party of negation, a party of destruction. But when it came in the nation and in California to a task of constructive destruction the people would not trust to the Democratic party even a negative task. They waited until they could have a Republican organ for its expression, because the people trusted in the Republican party. I am a little fond of that phrase 'constructive destruction.' The ax is the pioneer's first tool."

**NO EXCUSES.**  
"There is not only no longer any excuse for a Republican voting the Democratic ticket but no excuse for any Democrat voting it."

"We can join in sending to congress a united Republican delegation of congressmen. No one wants a Democratic congress but a few reactionary Republican congressmen. Let us unite in electing a Republican government, lieutenant governor, state officers, a Republican United States Senator and a Republican delegation to congress."

"I feel like congratulating this convention on its insignificance, its innocuous desuetude."

**PRINCIPAL FUNCTION.**  
"A principal function of the past, that of choosing candidates, has passed into the hands of the voters. But in many ways this is the most important convention ever held in California. This is the first whose platform will be telegraphed, printed and printed in full in all the leading newspapers in the United States. Most of you have had the experience of being unpopular. Most of you have watched the world growing better. Most have seen pessimism giving way to optimism. All of you have lived to see the time when in the economy of American politics it has become respectable to be decent."

"There is nothing more to do now but to go home and work for the election of Johnson, Wallace and the ticket."

**APPOINTS COMMITTEES.**  
When Chairman Rowell had finished his address he stated that he would proceed at once to the work of appointing the local committees and would appoint the members among the delegates so as to allow two from each state district on each. Before leaving the platform he arranged the names, he introduced Supervisor Paul Bancroft to act as temporary chairman during his absence. Bancroft said a eulogy to Los Angeles, saying: "There is one section of California which we of San Francisco are extremely proud of. When we saw the returns for Hiram Johnson coming in from Los Angeles we were glad for once that San Francisco was not the State of California. We were proud of Los Angeles. I will ask Leo Gates of that city for a few remarks."

**GIVES THREE CHEERS.**  
Before Gates could open his speech some one called for three cheers for Los Angeles, which were followed by three for San Francisco, three for Southern California and three for the State itself. Gates then spoke in an exceedingly happy strain, comparing the opportunity which the direct primary had given to the voters of selecting their own candidates to the privilege accorded a man of leading the bride of his choice to the altar in holy wedlock.

Before he had concluded Rowell had returned to his seat, and the names of the appointees on the several committees were announced amidst applause. The chairman next suggested that the committees retire to adjacent rooms and organize and after quiet had been restored to A. J. Wallace, Republican candidate for lieutenant governor, was asked for an address.

**SPEAKS OF VICTORY.**  
He spoke enthusiastically of the recent Republican victory, predicted success at the polls for the party at the regular election, and eulogized Hiram Johnson, saying that he was a man in ten thousand, and that few could stand the physical strain that had been put upon him in his strenuous campaign.

Chairman Rowell named the following committees:

**PROTECTION AND THE TARIFF**  
We declare our unswerving adherence to the Republican doctrine of protection, without which the American standard of living cannot be maintained. We hold that the true measure of protection is the difference in the cost of production and distribution at home and abroad. Less than this is unjust to the American laborer and producer; more, it is unjust to the American consumer.

We believe that the methods of trade and barter heretofore prevailing in the framing of tariff bills have resulted in unsatisfactory tariff laws. We therefore join with the President in demanding the appointment of a permanent tariff commission, wholly removed from the possibility of political pressure or improper business influences. Such a commission should ascertain the difference between the cost of production, which is mainly the difference of labor cost, and the distribution here and abroad. As fast as its recommendations are made congress should revise one schedule at a time. We oppose any future general revision based upon insufficient data to determine the amount of protection actually needed.

**RAILROADS' PART IN POLITICS**  
The Republican party of California repudiates the dominating influence heretofore exercised in the councils of the party organization and in the conduct of the government of the state by the Southern Pacific railroad and allied corporations. We call upon the legislative and executive officials now about to be elected to eliminate that influence from all participation or control in the governmental affairs of the state. We recommend the value of the services of all transportation companies, and we make no attack upon the legitimate business of the Southern Pacific railroad or any other corporation. But we deny the right of any corporation to usurp the functions of government or party management and we expect a Republican governor and legislature to take such action as will terminate that control.

We repudiate also the domination of like interests, insofar as it has been manifested in the national government and in national politics, and call upon our representatives in congress, irrespective of their past attitudes on the immediate parliamentary issues raised by the insurgents in the last congress, to join with the progressive forces in needed reforms in the methods of congress, and in the elimination from control therein of the reactionary forces.

## PLATFORM OF REPUBLICAN PARTY ADOPTED BY STATE CONVENTION

THE California Republican State convention hereby declares the continued allegiance of the Republicans of California to the Republican party, and to the progressive Republican policies enunciated by President Roosevelt and affirmed and already in part enacted to law under the administration of President Taft. We commend President Taft in his efforts and announced intention further to carry out these policies, and look to our senators and representatives in congress to cooperate with him to that end.

**9. Better Business Methods**—Systematic examination of the business and accounting methods of the various State and county offices with a view to introducing a system of uniform accounting and providing the highest degree of economy and efficiency now made practicable by the development of modern business methods.

**10. Conservation**—We heartily approve of the admirable policies of national conservation initiated by President Roosevelt and organized by Gifford Pinchot. We recommend the enactment by the Legislature of 1911 of measures to prevent the further monopolization in perpetuity of the State's water powers, permitting the use of such water powers by private capital only for a definite period, and on terms fixed by the State. Following this, the appointment of a commission to recommend to the succeeding Legislature a comprehensive plan, which, without conflicting with national conservation, shall apply similar standards to the conservation of such natural resources as now are or may hereafter come under the jurisdiction of the State, including water power and irrigation not already covered by vested rights, drainage and reclamation; the proper conservation of mineral resources and the protection of State and privately owned forests.

**11. Capital and Labor**—In the contest between the wage-worker and the capitalist we stand for the square deal for both, and favor legislation by State and nation which will improve the conditions of labor and best conserve the source of all wealth—human life. We recognize that the wage-earner has the same right to organize for the improvement of the conditions under which he labors that the capitalist has to use his capital in corporate enterprises. Both forms of organization should be given equal opportunity before the law to carry out their legitimate aims.

**12. Employers' Liability**—An employers' liability act which shall put on the industry the charges of its risks to human

life and limb along the lines recommended by Theodore Roosevelt.

**13. Injunctions**—The better definition and limitation of the rights of the courts in the issuance of injunctions in labor disputes along the lines recommended by President Taft to the last National Republican Convention.

**AS TO RAILROAD COMMISSION**  
14. Railroad Commission—Such additional legislation or constitutional amendments as may be necessary to make the State Railroad Commission fully effective, including provisions for the physical valuation of railroad properties as one essential step toward a true basis for the fixing of rates, provisions for a uniform system of accounting, for giving the commission power to initiate action, and such further provisions for the regulation of rates and services as shall fully and effectively protect the rights of both the people and of the railroads.

**15. Woman Suffrage**—The submission to the judgment of the voters of California of a constitutional amendment providing for woman suffrage.

**16. Asiatic Immigration**—We declare our faith in the unswerving opposition of the people of California to the further admission of Oriental laborers, and we urge upon Congress and the President the adoption of all necessary measures to guard against this evil.

**17. Federal Steamship Line**—We urge Congress to provide for the prompt establishment of a Government line of steamships between Panama and Pacific Coast ports.

**INDORSES PANAMA EXPOSITION**  
18. Panama Canal Exposition—We indorse the proposed Panama Canal Exposition and urge upon Congress the recognition of the claims of San Francisco as the proper location for such an exposition.

**19. Income Tax**—We pledge our representatives in the Legislature to work and vote for the amendment to the Constitution of the United States, recently submitted to the various legislatures by Congress, permitting an income tax to be levied.

**CONCERNING LABOR MATTERS**  
11. Capital and Labor—In the contest between the wage-worker and the capitalist we stand for the square deal for both, and favor legislation by State and nation which will improve the conditions of labor and best conserve the source of all wealth—human life. **FOR BETTER STATE ROADS**  
We demand the strict and vigorous enforcement of the anti-trust laws against all offenders.

We recommend to the favorable consideration of the voters of California the propositions to be submitted to them at the coming election providing for the improvement of the public roads and for the improvement of the harbors of San Francisco and San Diego.

On this platform of progressive Republican principles, we invite the co-operation and aid of all citizens to the end that the candidates chosen by the Republican voters of California may be elected and the policies herein enunciated successfully carried into effect.

chairs of the crowd, spoke feelingly of the honor which had been accorded to him.

**IMPORTANT EPOCH.**  
He said he would remember with pride the day which would mean to him an important epoch in the political history of the state.

He warned the delegates that they must not forget the responsibility still resting upon them for the election of Johnson and Wallace.

This ended the afternoon session and an adjournment was taken until 8 o'clock. It was considerably after that hour, however, before all was in readiness for the announcement of the platform which was the principal event of the evening. Harris Weinstein, the chairman of the plat-

## GOOD REASONS ARE ADVANCED FOR COMBINING

R. J. Montgomery Gives a Few  
Facts for Consideration  
of Voters.

### ARGUMENTS OF THOSE OPPOSED SWEEP AWAY

Declares Oakland and Berke-  
ley Would Help Each Other  
in Consolidating.

The consolidation election to be held in Oakland and Berkeley September 1, 1924 is an advance step toward a consolidated city and county government. It is a step toward a more efficient government, a step toward a more economical government, a step toward a more unified government.

In its discussion of the consolidation of Oakland and Berkeley, the Tribune has endeavored to present a fair and impartial view of the arguments of both sides. It has endeavored to show the reasons for and against consolidation, and to show the facts of the case. It has endeavored to show the advantages and disadvantages of consolidation, and to show the facts of the case. It has endeavored to show the reasons for and against consolidation, and to show the facts of the case.

### NEED THEIR HELP.

If the good people of Berkeley are what they claim to be, they are in a position to help Oakland. They are in a position to help Oakland in its struggle for consolidation. They are in a position to help Oakland in its struggle for consolidation.

### CANNOT MOVE COUNTY SEAT

In order to move the county seat from Oakland to Berkeley, the county board of supervisors must first pass a resolution to that effect. They must first pass a resolution to that effect. They must first pass a resolution to that effect.

### LEGISLATURE WOULD ACT

With the exception of the county board of supervisors, the legislature would have no voice in the consolidation of Oakland and Berkeley. The legislature would have no voice in the consolidation of Oakland and Berkeley. The legislature would have no voice in the consolidation of Oakland and Berkeley.

### TAX RATES

The people of Berkeley will pay no more taxes than the people of Oakland. The people of Berkeley will pay no more taxes than the people of Oakland. The people of Berkeley will pay no more taxes than the people of Oakland.

## JULES ABRAHAMSON HOME AFTER BUSINESS VISIT TO EAST, TALKS OF CONDITIONS

Declares Labor Market All Over Country  
Is Disturbed; Would Have Govern-  
ment Take Hand

After a trip of nearly six weeks through the East Jules Abrahamson of the first Abrahamson Brothers has just returned and has some very interesting remarks to make concerning conditions in the business and political world beyond the Rockies.

Abrahamson is a close student of contemporary men and affairs and his observations while East throw a strong light upon the general feeling of unrest that is being felt by the business and political world of the country.

He left Oakland during the latter part of July and stayed for a week at the Hotel Atlantic City, resting from his business activities. He was for the most part of his time in the great resort center of the country, New York.

### OAKLAND THE BEST

Needless to say he has returned with the feeling that this city is not and cannot be equaled by any place that he has been visited. When interviewed this morning, he said in response to questions about his trip.

"While I was only on a business trip and I had no time to give to the pursuit of pleasure, even if I felt so inclined, I was in a position to see many things that I could not see in any other place. I was in a position to see many things that I could not see in any other place. I was in a position to see many things that I could not see in any other place.

"I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East.

### KNOW OF STRIKE.

"I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East.

"I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East.

business world from affection by the "cottage of work in any commercial line. It would be a very good thing both for capital and labor.

"I have studied the arbitration laws of the commonwealths of Australia and New Zealand and they seemed to have found the remedy. Where both capital and labor are parties to an agreement and it is broken by one of them, the government should be in a position to fix the responsibility without delay and to arbitrate the differences. As it is at present the unsettled condition of the business and labor world constitutes a serious menace to society. The only remedy is a Federal law that will treat both parties with the utmost impartiality.

### STATE OF POLITICS

In response to questions concerning the state of politics in the East and particularly in New York City, Abrahamson said: "The tendency seems to be to adopt Democratic policies, but this mainly because of the disturbance of the present political condition by the introduction of new ideas that may and may not be the specific cause of existing ills. These new ideas are continually cropping up. I feel that unless the present leaders of the Republican party get together and see that the body politic the general public is served by the men they place in office instead of allowing these men to work for the advancement of special interests, the feeling of dissatisfaction is quite likely to assume a serious aspect.

Abrahamson spent a week at Atlantic City. He describes the resort as one of the most wonderful pleasure cities ever known.

### SURPRISE TO HIM

It was a surprise to me, he said, to find the extent and magnitude that Atlantic City has grown up to. Normally it is a town of about 40,000 people, but during the week I spent there more than 200,000 people filled the hotels, cottages and residences of the town. Many of them could not find a commodious place to stay. They were there and were obliged to sleep in the sand on the beach and on the famous board walk.

The beach and the board walk were always crowded with multitudes of summer visitors. Lining the long board walk there are nearly 100 hotels, most of them having from 500 to 1,000 rooms. Despite the enormous hotel accommodations there was much overcrowding. The carriages could not begin to take care of the mob.

Speaking of the regard in which Oakland is held in the East, Abrahamson said: "We are beginning to be recognized by the great financiers in the East as the coming city of the Pacific Coast. The proof of this appears in the readiness with which they listen to any proposition that comes from here. They are ready to grant us financial support for our undertakings and to give us money that we may need for improvements or in the extension of our commercial affairs. We can now get special dividends from the Eastern capitalists who heretofore refused because they did not consider Oakland a commercial center. But who have come to realize from the growing fact that the city is a place that affords some good investments.

"I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East.

"I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East. I found a good deal before I left for the East.

## GIFFORD PINCHOT GIVEN OVATION BY THROGS AT CONSERVATION CONGRESS

Former Forester Paid Tribute by Cheering  
Crowds at Great St. Paul  
Meeting

ST. PAUL, Sept. 7.—The two opposing ideas of conserving natural resources met squarely today when Senator Beveridge in an eloquent speech declared for national control while James J. Hill urged on the contrary.

Gifford Pinchot received an ovation that furnished the most dramatic moment of the day. The former forester, who was the chief of the conservation movement, was cheered by the audience. He was cheered by the audience. He was cheered by the audience.

Senator Beveridge sounded his keynote in the statement. This is one nation, not forty six nations.

Hill said there were dangers inseparable from national control. The machine was too big and concrete. He said and its operation too slow and costly.

Chairman George C. Pardee of the resolution committee called that body to order before the congress convened. The membership of the committee is said to include that the platform to be recommended to the convention will be strongly along the lines of national control as favored by Colonel Roosevelt and Gifford Pinchot.

IN FIGHTING MOOD  
Edward M. Hines, the Chicago lumberman whose appointment as chairman of the credentials committee was opposed by Senator Beveridge because of his alleged connection with the money trust, was in a fighting mood today.

He declared he would not resign the chairmanship under fire. Meanwhile President Baker of the congress acting under the impression that Hines had withdrawn announced the appointment of G. C. Pardee of the University of Nebraska.

CONDRA IS NAMED  
I understood Mr. Hines did not want the place, explained Mr. Baker, and so appointed Mr. Condra.

I am still chairman, declared Hines. I was regularly appointed and I do not decline the honor and I have not been asked by President Baker to resign. The place since certain of the Illinois delegation has seen fit to play cheap politics I shall stick and fight it out.

The meeting of the credentials committee is scheduled for tonight. Hines' attitude seemed to promise that there would be two chairmen present.

DESERTION CHARGED  
AND DIVORCE GIVEN  
Isabella F. Verry of Hayward was granted an interlocutory decree of divorce this forenoon by Superior Judge Wente from Charles J. S. Verry, a Southern Pacific locomotive engineer on the ground of desertion. The couple were married at San Rafael in May 1899 and the alleged desertion occurred in April, 1905.

## FUNDS FOR BIG FART WIN HEARTY SUPPORT OF SENATE COMMITTEE

### Many Amendments Adopted Tending to Assist Plan for Panama-Pacific Exposition

SACRAMENTO, Sept. 7.—The constitutional amendments providing for a tax levy of \$5,000,000 on the state and for a \$5,000,000 bond issue in San Francisco for the benefit of the Panama-Pacific exposition passed the senate today by a vote of 36 to 2. The senators voting in the negative were Crampton and Amador and Campbell of San Luis Obispo, both Democrats.

SACRAMENTO, Sept. 7.—At the afternoon session of the joint committee of the senate and assembly on the Panama-Pacific exposition, amendments were adopted tending to assist the plan for the exposition. The amendments were introduced by Senator Crampton of San Francisco, who was supported by Senator Amador of San Luis Obispo, both Democrats.

The first amendment offered and acted upon was that the state should contribute to the exposition a sum of \$5,000,000. This was adopted by a vote of 36 to 2. The second amendment provided that the state should contribute to the exposition a sum of \$5,000,000. This was also adopted by a vote of 36 to 2. The third amendment provided that the state should contribute to the exposition a sum of \$5,000,000. This was also adopted by a vote of 36 to 2.

## MRS. WILLIAM MULLINS CARRIED TO LAST REST

### Throngs of Friends Attend Funeral of Pioneer Woman Held From St. Patrick's Church

With one of the largest and most distinguished funerals ever held in St. Patrick's church, the funeral of Mrs. William Mullins took place this morning from the edifice which she had attended for the last twenty-five years. Scores of those who were her associates in the work of the church were present to acknowledge the passing of a pioneer woman.

## Three Generations Use It

The honest straightforward statement of Mrs. Rhoda Pritchard of Astoria, L. I., is convincing proof of the great merit of Duffy's Pure Malt Whiskey as a family medicine. Thousands of such letters are received from grateful men and women who have derived wonderful benefits from its use.

"I don't know how to express myself in regard to Duffy's Pure Malt Whiskey. I have taken it for twenty years and it has saved my life several times when I have been given up to die by my physicians. I am now 66 years old and hale and hearty, thanks to Duffy's Pure Malt Whiskey. I have recommended it to many people and also to my immediate family, my children and my grandchildren, and they in turn have recommended it to others. My children say I do not look a day over fifty and I do not feel that old."

## Comptroller Shakes Up Banking Force

Twenty Examiners Transferred to New Fields; Law to Be Enforced.

WASHINGTON, Sept. 7.—Twenty national bank examiners, about one-fifth of the force employed by the Government, were transferred to new fields today by order from Lawrence O. Murray, Comptroller of the Currency.

Following closely on the sudden call for condition 8 national banks which was made on September 2 and the announcement of the Comptroller, that, in the future, he would personally pass on the application of banks which wished to hold reserve, the shake-up among the examiners is taken as another indication of the determination to enforce to the letter the provisions of the national bank act.

## DEMOCRATS IN CONVENTION LAY PLANS FOR FIGHT

Platform Adopted and Principles Uttered by Leaders at Stockton Meeting.

BELL ADDRESSES FARMERS ON THEIR CIVIC DUTY

Fling Is Taken at Tariff Law; Advocates Better School System.

STOCKTON, Sept. 7.—At the afternoon session of the Democratic state convention yesterday, the delegates voted their platform and resolutions that they be added to the platform of the Democratic ticket and that the State Central Committee name Democrats in their stead were adopted. Kirby, the insurgent candidate in the eleventh congressional district, was represented to have obtained the Democratic nomination, but as he had not won the Republican nomination, he refused to make a campaign against Congressman Smith. The State Central Committee was requested to get him to resign and to put William G. Irving in his place. Several delegates observed during the discussion that Republicans could not get Democratic nominations without the concurrence of the Democrats themselves, and that it was foolish to blame the Republicans on this account.

### SUFFRAGE PLANK.

The only request for a woman suffrage plank in the platform came in a telegram from the Women's Club of Los Angeles, of which Clara Shortridge Foltz is president. It was not without comment.

The San Francisco delegation had to retire for a caucus in order to select members of the platform and orders of business committees. There were several applicants for each place, and the delegation finally authorized its chairman, Louis Moser, to make the choice. He named David Hirschberg for the platform committee and John W. Cramer for the committee on order of business.

### STATE COMMITTEE.

The state central committee held a meeting during an afternoon recess of the convention and organized by the election of R. H. Dewitt as chairman, John P. Murray as secretary and Mrs. J. H. Moser as treasurer. A. W. Norton of Los Angeles was named to succeed John H. Sanford as vice-chairman. During the submission of sundry resolutions for the consideration of the platform committee there cropped up a series of reports against the nomination of Republicans upon the Democratic ticket through the neglect to make a primary fight for known members of the party.

### AS TO DEMOCRATS.

The first instance of this sort came up with the relation to the office of state controller. A resolution was presented by the Los Angeles delegation requesting the state executive committee to endeavor to secure the withdrawal of Nye as a Democratic candidate in order that a real Democrat might be named. The Democrats failed to have a candidate for this office and Nye's name had been written in by enough Democrats to give him the nomination on the Democratic ticket.

### NYE RESOLUTION.

The Nye resolution went through without opposition, but a similar resolution with reference to the party congressional district, where Joseph R. Knowland is a Democratic candidate under similar conditions, started a rumble. David Evans of Los Angeles made the principal protest against this action, declaring that the direct primary law should be observed. Nomination of Knowland by Democrats, he declared, and the failure to name a Democrat was a matter of neglect on the part of the Alameda county members of the party. He said that they should settle the matter among themselves and not wash their dirty linen in the state convention. The convention, however, thought otherwise and it was agreed that the state executive committee should make the desired request, but it was frankly stated that there was little hope that Knowland would accede.

### KNOWLAND'S GOOD RECORD.

Mr. Knowland did not make any fight for the Democratic nomination. On the contrary, the Democratic leaders have ordered to write in the name of Judge E. M. Gibson. Instead of standing by Gibson, the Democrats wanted Knowland so they voted for him. Mr. Knowland simply stands by the majority rule. The majority of the Democrats wanted him on the ticket on account of his good record, and so they voted for him.

## Deputy of Farmer in State and City Is Defined by Theodore Bell in Speech - At Stockton; Would Bar Out Asiatics

STOCKTON, Sept. 7.—Theodore Bell, the nominee for governor, was the principal speaker last night at a mass meeting in Masonic hall, where the Democratic state convention was held yesterday. Several other Democratic nominees for state and congressional offices were among those who were called upon to address the meeting. The hall was well filled with convention delegates, who remained over last night, together with a good sprinkling of Stockton citizens.

## Declarations of Bell Speech Epigrammatic

STOCKTON, Sept. 7.—Following are some of the epigrammatic declarations made by Theodore Bell in his speech at the Democratic rally here last night:

There is something radically wrong when public expenditures increase faster than population. The opposite rule should prevail.

No man should be permitted to claim one acre of our soil in fee simple, absolute, unless he be a citizen of our country or entitled under our laws to have his name written in the great roster of American citizenship.

The races of Asia, whose naturalization is impossible, should never be allowed to gain a foothold on our soil.

I believe the State should exercise its full powers to protect itself against the evils of Asiatic immigration.

Make water transportation as easy as possible, and you can control railroad rates.

Through organized labor perpetual industrial peace will finally come.

has obtained enough elementary training to make him a useful and upright citizen.

### MORE TEACHERS NEEDED.

"Our school rooms must be less crowded. This means an increase in the number of teachers. Those who teach our schools must be carefully selected and paid in proportion to the responsible work in which they are engaged. The two great movements that have led in the uplifting and improvement of millions of people are the elevation of women and the elevation of labor. Through organized labor perpetual industrial peace will finally come. The good will and co-operation which is manifested within the labor union themselves is being carried to a larger field of action, that of unifying the interests of employer and employee."

### ANNOUNCEMENTS

#### NO MORE GRAY HAIR.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. They made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a hair long after middle life was due to this fact. ## What the Square Deal Means.

"We must drive the special interests out of politics," says Colonel Roosevelt. That is a great deal better than levying contributions on them to pay campaign expenses. But it must be remembered that in a popular government every class and condition is entitled to a voice in public affairs. All interests, whether special or otherwise, have rights and claims to consideration, nor can any person be denied the right to participate in politics. Private interests of a special character, whether financial or otherwise, should not be permitted to dominate the activities of government or control legislation, nor should they be given any special privileges, advantages or exemptions; nevertheless they cannot be proscribed and wholly driven out of politics. In this country political activity touches every industry and affects the interest of every class. Only by giving all interests and classes a square deal can we have righteous and free government. The square deal is as broad as it is long. It has no bulging sides, no concavities and convexities, no exceptions, no favorites and no victims. It is a guarantee of fair and honest treatment all around. By no means does it mean an assault on vested rights and an undermining of the foundations of stability and property values, nor does it mean the abolition of all organic laws which stand in the way of virtual confiscation by legislative or executive action. A square deal is just that—nothing more, nothing less. It is the political expression of honesty and fairness. While it represents greed, extortion and oppression on the one hand, it protects capital in all legitimate activities on the other. It does not put enterprise under ban and destroy the security of investment on the other. Neither does it place the stigma of criminality on wealth nor treat success in the material activities of life as the fruit of dishonor and injustice. Quite the contrary. Rightly understood, it encourages progress and development along lines which promote national growth and preserves the principles of liberty. It proceeds in a spirit of moderation and justice directed by enlightened patriotism. The square deal neither persecutes nor plunders, neither does it stifle the energies of a people. No more does it create classes or foster class hatreds. It gives to no man something he does not earn, nor does it take from any man something that is justly his. While ours is a government of men, not money, it must not be forgotten that money has its necessary and legitimate uses as an instrumentality in all public and private activities; that it is the lubricant of trade and industry and that driving it away expels prosperity, leaving idleness, stagnation and distress in its wake. The government should control financial and industrial organizations, not allow itself to be controlled by such organizations; but the control exercised by the government should not proceed on the theory that financial and industrial organization is quasi-criminal in character, a necessary evil to be repressed as far as possible, but should be directed by a desire to encourage every legitimate activity in human life. For the arteries of commerce and industry cannot be cut or bound up without stopping the circulation which keeps the body politic healthy and in working order. Unfortunately the public mind has become so excited and confused by persistent agitation that words and terms have lost their true meaning. There is a fever of popular indignation against organized capital and industry on one side, while on the other profound distrust and alarm has been created in the minds of capitalists and investors. Unless this misdirected and misinformed anger and the apprehension it has excited are allayed a tremendous financial crash will be the certain consequence—a crash that will involve every class and every interest in the United States. A panic resulting from political agitation would seriously retard social and political development in this republic and perhaps cause a reaction that would cause a disastrous retrogression.

President Taft's speech at St. Paul was the clearest and most intelligent deliverance yet made on the question of conservation. He told what had been done and how it came to be done. And then he suggested what ought to be done. His suggestions are sound and go to the core of the matter. If they are carried out we shall have genuine conservation that will permit of utilization without monopoly. However, the best thing he said was that the time for rhapsodies and glittering generalities had passed, and that the Congress should invite its speakers to come down to details, to specific evils and to specific remedies. But this will not suit the conservationists who spend their time firing in the air and hurling personal charges at people against whom they cherish a grievance. For instance, Governor Stubbs of Kansas will not be pleased with what President Taft says. His contribution to the discussion of conservation was an expressed desire to kick Secretary Ballinger out of office. Beyond that, the Governor of Kansas did not go. Probably that expresses the extent of his knowledge of and his interest in conservation.

At Osawatimie Colonel Roosevelt said that no corporation should be permitted to make contributions to political campaign funds. Mr. Bryan said the same thing some years ago, but it did not appear to meet Colonel Roosevelt's warm approval at that time. In 1904, Mr. Roosevelt's campaign fund was swelled by contributions from many large corporations, among them being the Standard Oil Company, the corporations constituting the beef trust and the big life insurance companies in New York. In that campaign E. H. Harriman raised \$264,000 at Colonel Roosevelt's personal request, to be expended in New York State. Possibly it was the demand for return of favors made by these contributing corporations that has caused Colonel Roosevelt to announce his belief that corporations should not hereafter be permitted to contribute to political campaign funds.

The business men of Houston, Texas, have organized an insurance company for the avowed purpose of carrying their own insurance by mutual arrangement. Where would San Francisco be today if her business men had carried their insurance in local companies organized on the mutual plan? San Francisco was enabled to rebuild after the great fire because she collected over \$200,000,000 insurance from eastern and foreign companies. Without that money the city would today be largely a mass of ruins.

## Kicking President Taft.

The platform adopted by the Lincoln-Roosevelt League convention glorified Theodore Roosevelt and Gifford Pinchot, but gave a guarded and grudging indorsement of President Taft. The president was merely praised in cold and formal terms, so brief as to be icy, for what he has done in the way of carrying out the "Roosevelt policies." Taft's plan of dealing with the tariff was indorsed, but the president's name was not mentioned in that connection. Yet tariff revision up or down, by commission or otherwise, has never been a Roosevelt policy. During the seven years he sat in the presidential chair Colonel Roosevelt never manifested the slightest interest in tariff reform. But he was always strong for protection.

The manner in which the Republican convention treated the president is nothing short of an insult. It barely falls short of open repudiation. The help Taft has given San Francisco in his efforts to get the Panama-Pacific exposition was ignored. The active interest he has shown in behalf of irrigation and reclamation was not mentioned. Indeed, he was only alluded to in connection with Roosevelt and the subsequent reference to Pinchot was a covert sneer at the president.

Putting aside the first two paragraphs and the one lauding Hiram Johnson and A. J. Wallace, the platform appears to have been compiled from the various platforms the Democrats have presented of late years in this state. But as the Republican nominee for governor, so it is generally reported, has regularly voted for Democratic gubernatorial candidates for the last sixteen years, it is quite natural that his platform should embody the policies enunciated by the Democrats.

## EDITORIAL PARAGRAPHS

VERY often the REAL will come to you out of the IDEAL when even you thought that you had gotten a FAD DEAL, in life's game.

FACTS are SUCCESS features to business when man is FAIR, but bode FAILURE when he FROWNS; facts become fancies when told in FEELINGS rather than in FIGURES.

PRECEPT may prance and paw in its effort to attain the good, but unless PRACTICE holds the reins the RACE will be but POORLY RUN.

MAN'S increasing power TO THINK comes from the wise USE of his THINKING POWERS from year in to year out; man's WISDOM grows as he sees more snows with his mind kept from idleness.

EACH DAY that man lives may be a WINNING DAY for him; each day gives him a show to go either FAST or SLOW to his goal.

MAN can't "kill time" to GET AWAY FROM WORK without working a lasting injustice against himself; man can't, even if he should try, get away from CASTING the die.

THE INDIFFERENT man differs from but few men; the man WITHOUT AN OPINION of his own is EASY-GOING and takes things that come EASY.

MAN is overstocked with blessings who having MUCH still wants MORE; man who always seeks seldom sees what he already has, and hence is poor.

MAN can be satisfied with little of this world's goods provided he is not contented with himself until he has done the greatest good with the possessions he has.

## VAGRANT VERSE

THE COW-BELL.  
Did you ever, busy thinking of some deal you're putting through,  
So engrossed with it no ordinary sort of jolt could startle you,  
Eat a berry or a cherry, or a bit of wintergreen,  
And forget the deal you're making, while a far-off boyhood scene  
Seemed to catch you up and hold you, or to swing you to and fro  
O'er the meadows of boyhood down the paths of long ago?  
If you did you know the feeling that was tugging at my feet  
When last night I heard a cow-bell go ding-dong along the street.

I don't know what urchin had it, why he had it, nor yet how  
It came into his possession, but—I almost hear it now!  
It recalled the hill back yonder and the smell of new-turned loam,  
And the old ding-dong cowbells as the cattle ambled home,  
I could hear them gently moving as they splashed across the ford,  
Past the old spring in the hollow with its timeworn drinking gourd,  
And behind them poking at them with a long sharp ended gourd  
Came a barefooted and bareheaded little boy along the road.

And the sunset's glory touched him, and it lighted in his eyes,  
And his shadow stretched behind him, and he climbed the gentle rise  
From the flats and let the cows in at the big old-fashioned gate,  
And I seemed to stand beside him as he stepped aside to wait,  
And my eyes looked into his eyes where his boyish hopes lay bare,  
And his hoping was the hoping I had known away back there!  
Then the ding-dong of the cow-bell falling silent set me free  
And it left the scenes back yonder and the boy that once was me.  
—Judd Mortimer Lewis.

## HEALTH AND MONEY

There is no truer motto than that health is of greater value than wealth, and there is none more frequently disregarded, either thoughtlessly or wilfully, and perhaps no aggressive disregard of it was ever more revoltingly cynical than that which was implied in the remark made the other day to Dr. Wiley, the Government chemist and pure food agent, by the representative of a large establishment engaged in the preparation of a food product. Dr. Wiley had condemned the use of some chemical in the food as harmful to health. The other practically conceded that such might be the case, but asked Dr. Wiley if he would consider the protection of health a sufficient reason for interfering with a business in which so large a capital was involved.  
Dr. Wiley of course promptly, emphatically and properly replied in the affirmative, to the effect that he held the public health to be the supreme consideration, with which he would not permit any pecuniary considerations to interfere. We may wish for piecefully that same spirit, active and aggressive, in all who are charged with the enforcement of pure food laws and all laws for the protection and promotion of public health.

## GIRL SUPREME

to the hearts of those who realized that the West still holds in its woman folk the hardy outdoor love of the life of former days.

The cowgirl in typical Western togery had to take her sombrero off to a slip of a girl with her blond hair tied with two huge blue bows. Joella Irwin, already known to fame as a peerless rider, carried off another blue figurative ribbon than the ones she wore in her blond hair.

Three small girls, one as brown as a berry, with short cropped brown hair and big brown eyes, another blond as the winning Joella, all three bearing the name of Irwin, were figures in that one-half mile ladies' cowpony race, which ended in Joella taking home \$50. Older cowgirls there were and Mrs. Clayton Danks, famous rider, carried off the second prize of \$25, but in those small, flying figures on their best horses the eyes of the spectators were fastened as they moved about the course.—Denver News.

## IN OAKLAND

In his Oakland church, and a big crowd of parishioners was on hand to hear him and wish him luck.

The annual conference of the Seventh Day Adventists of California, Nevada, Utah and Arizona will convene in this city Wednesday, September 17.

At 4 o'clock yesterday afternoon the special train bearing 400 delegates to the biennial international convention of the Brotherhood of Locomotive Firemen, which is to be held in San Francisco, arrived in Oakland.

Assistant Bishop Nichols visited San Quentin yesterday and confirmed nine candidates.

Although the number of new dwellings commenced during August is not large as in some of the former months, the class of structures is superior and the average value greater than at any former period.

About 600 of the city's voters have been registered. It is estimated that there is about 1000 voters in the city at present.

The following are the newly elected officers of the Oakland Women's Christian Temperance Union: President, Mrs. F. M. Husted; vice-presidents, Miss H. Huggins, Miss J. Marston, Miss Ella Marquand and Miss Rose Dobbins; secretaries, Miss G. Hachley and Miss Blanch Morse; treasurer, Miss S. Hohn.

## REVENGE IS SWEET

Revenge has always been sweet, we are told, and in New York one of the sweetest forms of revenge which the property owner can get, after a difference of opinion with the neighbors, seems to be to advertise the place for sale "to negroes only." In The Bronx a fine property on a desirable street has been sold to a member of the negro race, and while the seller insists that the purchaser was favored only because he offered the highest price for it, the neighbors have taken a different view of the matter. A Brooklyn woman who thought she had a grievance and wished in this manner to get even with the neighbors specified in the sale advertisement that she wanted to deal only with negroes.

Without reflecting in any way upon the desirability of members of the negro race in a neighborhood, if they conduct themselves properly, it is not quite creditable to the judgment of the purchaser.

changers in such cases that they land themselves to a scheme to "get even." The negro who purchases under such conditions knows perfectly well that to whatever prejudice there may be on account of color will be added the natural resentment against the former owner of the house. No special pleasure can be found by an intelligent negro in living in any section under these conditions, and while his right to purchase property in the open market is unquestionable, there is such manifest wisdom in being made a cat's paw to rake the chestnuts of others out of the fire that the wise negro will carefully avoid purchasing property offered under such conditions. There are enough unpleasant things about being a householder to make it distinctly worth while for any one, white or black, to avoid unnecessary ones so far as possible.—New York Tribune.

## THE NEWPORT 'CRAZE'

In the days when Newport was a commercial power in the land it took its relaxations with dignified ease. Strenuousness was kept sharply within the limits of business hours. The social life of the town was "grand, slow and courtly but thoroughly enjoyable." Intellect had its victories even as trade. It is a part of the latter-day contract that, with commerce departed from Newport, society is wearing itself out with a destructive fever of entertaining. In current news notes we read of women fainting at dinner dances and of summer dwellers, both men and women, hurrying elsewhere away from the strain.

Such a state of pernicious activity does away for the moment with the accusing phrase of the "idle rich." They may have been working at Newport to purpose worse than vain, but they have been working hard.

The keenest criticism on the situation and its victims perhaps may be adapted from yesterday's comment of a visiting Russian countess. Speaking of things that pass for European fashions at Newport this shrewd lady declared: "Everything is exaggerated for them. And they seek not to have gowns that express their personalities but personalities that match their capriciousness of gowns."

With a like perversion of exaggeration they have thrown themselves into a social idea passively without a parallel in other worlds of wealth.—New York World.

## PLEA FOR CATTLE RANGES

Francis James, a cowboy of Blackfoot, Idaho, is coming through St. Paul in the near future on a transcontinental trip on horseback, in which he will see as many prominent men as possible and try to create a sentiment for the preservation of the big ranches of the Western States.

"The American people like their beefsteak, but if the ranches are cut up and the people have to depend on the farmer for their beef they will not get it," he says in a letter received by Governor Eberhart recently. "There are millions of acres of land not fit for agriculture that make good grazing land, but there is no use to divide it into sections and sell it for farms."

Mr. James advocates the establishment on this land of national range preserves which may be leased to the crop-raiser. This is just as reasonable and practical as the establishment of national forest reserves, he says.

The start will be made from Cheyenne, Wyo., and he will make the

principal towns between there and New York, going from New York towards Texas and from Texas across to Cheyenne. Mr. James sent the Governor a drawing of a cowboy on a broncho, made by himself on cloth, as a souvenir.—St. Paul Pioneer Press.

No insult intended. "Haven't we met before?" inquired the inquisitive, bent-nosed man in the day coach.

"I hope not," replied the short haired man, who was sharing his seat.

"You hope not?" ejaculated the repeated first speaker. "Do you mean that, sir, for an insult?"

"I intend it for just the reverse of an insult, my friend," responded the man with the crooked nose. "And I think you will appreciate my sentiment and feel like thanking me for giving it expression when I tell you that this is the first day in thirty years that I have been out of the State's prison."—Chicago Daily News.

# S.S.S. CURES MALARIA

Malaria is a species of blood poverty known as Anaemia; it is a condition in which the circulation is so weak and impure that it is unable to supply the system with sufficient nourishment and strength to preserve ordinary health.

The real source of malarial infection is a question about which medical authorities differ. Some take the position that it is an atmospheric poison, the germs of which are breathed into the lungs and thus transmitted to the circulation. Others advance the theory that persons become inoculated with the poison through the bites of mosquitos. While the profession differs about the actual method of malarial infection, they all agree that Malaria is a BLOOD DISEASE, and any treatment to successfully overcome its effects must PURIFY THE BLOOD.

When the germs of Malaria get into the circulation, the nutritive properties of the blood are weakened, the rich, red corpuscles being gradually destroyed by the malarial poison. Then the symptoms of the disease begin to be manifest. In the first stages of Malaria the complexion becomes pale and sallow, the appetite is affected, the system grows bilious, and there is a general feeling of lassitude and weakness. Malaria is an insidious poison and it gradually attacks other portions of the system, and if the germs are allowed to remain in the blood, they sometimes give rise to serious diseases and disorders. As the circulation becomes more thoroughly saturated with the malarial infection, the digestion is deranged, chills and fever come and go, skin diseases, boils, sores and ulcers, etc. break out on the body, and after awhile the entire health becomes impaired.

Malaria can only be cured by removing the germs from the blood. Purging the liver and bowels with strong, nauseating cathartics can never reach the real seat of the trouble, because such things do not affect the circulation. S. S. S. searches out and destroys every particle of malarial infection and builds up the blood to a healthy, nourishing condition. Then the system receives its required amount of nutriment, the bright red corpuscles begin to multiply in the circulation, sallow complexions grow ruddy and healthful, the liver and digestion are righted, the appetite improved, and the system vitalized and refreshed in every way. S. S. S. is a safe and pleasant remedy as well as an efficient one. Write for free book on the blood and any medical advice desired, no charge for either.

## POISONED BY THE GERMS OF MALARIA.

I began using your S. S. S. probably ten years ago for Malaria and blood troubles, and it proved so good at that time that I have continued ever since using it as a family remedy. Recently one of my children was troubled with large, painful boils on the back of his neck; after suffering with these for several months, we tried S. S. S., and am glad to state that a few bottles cured him entirely. It is a pleasure for me to recommend S. S. S. for the benefit of others who are needing a first rate blood purifier, tonic and sure cure for Malaria. C. C. HEMMINGWAY, Arkansas City, Ark.

## NO RELIEF UNTIL S. S. S. WAS TAKEN.

I had a horrible attack of boils that broke out all over my body, from Malaria, and from which I could get no possible relief until I began taking your medicine, and from my experience I can safely say that S. S. S. is the best blood purifier in the world. MRS. M. P. SMYTHERS, Wytheville, Va.

## FESTIVAL TO OPEN WITH CROWNING OF QUEEN

Admission Day Will Be Celebrated in San Francisco as Never Before.

THREE DAYS OF REVELRY TO FOLLOW CORONATION

Army and Navy to Be Represented in Big Parade and Celebration.

SAN FRANCISCO, Sept. 7.—The admission day festival will open tomorrow by the crowning of Queen Grace as carnival ruler of California. Crowded streets yesterday and today was the sign that the preparations for the three-day celebration of the admission of California into the Union will not be on a small scale.

A choral concert of 5000 children under the direction of Miss Estrella Carpenter will be one of the impressive features connected with the coronation of Queen Grace in Union Square. Revelry and fun will mark the opening day of the festival. All will bow to the queen of carnival California tomorrow and thereafter for three days her authority will be supreme.

## ARMY AND NAVY

The army and navy will be here in full array, and with the 740 jolly tars and officers, will take merry when the carnival spirit awakes. Twenty-nine officers of the mosquito fleet will participate in the celebration as guests of the committee. Col. Frank W. Marston, chairman of the reception committee of the Admission Day Festival; J. Emmett Hayden, chief of staff of the grand marshal, Dr. Leo J. McMillan and Frank J. Monahan of the reception committee, called upon Commodore L. C. Richardson informally, and then were taken to the Palace and were officially received by Captain C. H. Hayes. Invitations were given the navy to participate.

## 10,000 COSTUMES.

A notable incident of the days preceding the festival is the fact that every tailoring establishment is working full force and night and day, making 10,000 costumes. Besides, others are coming by fast freight from the East.

Official souvenir programs are now out. The only official souvenir program, which bears a lithographed reproduction of the official poster on the cover, contains all the official information as to parades, headquarters and lines of march of the parades and articles by members of the festival committee.

A large part of the sum set aside for the 250 parades, will be used to add to the brilliancy of the night street parade and the big masquerade afterward.

As the capacity for the hall is limited only 10,000 tickets have been issued. These are for sale at the headquarters of the festival committee and at the information bureau, 127 Powell street, and at all parlors of the Native Sons and Daughters.

A brilliant night spectacle in the Chinese quarter is being planned by the Chinese merchants. One building will be covered by 6000 lights.

## El Model Club to Give Monthly Dance

The first of a series of dances to be given monthly during the season by the Rice Institute. A large number of invitations have been issued and it is expected that many will be present to help celebrate the initial function. Henry Anderson is chairman of the committee having the affair in charge and several features have been prepared which will add to the pleasure of the evening.

## FRUITVALE NATIVE SONS TO SHINE AT GREAT FIESTA

ERNEST ANTHONY ROSSI, MASCOT OF FRUITVALE PARLOR.

ERNEST ANTHONY ROSSI, MASCOT OF FRUITVALE PARLOR.

The Alameda county joint committee of the Native Sons celebration have made arrangements for the use of the ferry boat, Melrose to transport the members and the floats to San Francisco Friday morning. The boat will leave the foot of Broadway at 8 o'clock in the morning.

The Melrose is one of the largest ferry boats on the bay and the joint committee requests that every member who is to participate in the parade join the main body of the members on the Melrose.

The boat will reach the foot of Broadway at 8 o'clock in the morning and as the place designated for the formation of the Alameda county paraders is about thirty minutes' ride from the foot of Market street, it is requested that all members who do not go on the Melrose make efforts to join the main body at the San Francisco ferry.

PARADE ARRANGEMENTS. All the parlors in Alameda county are making every effort to present a fine appearance.

## WOMAN'S BEAUTY LECTURE SUBJECT

Series of Addresses to Be Given Under Y. W. C. A. Auspices.

To promote the spiritual, intellectual, social and physical life of women, a series of addresses will be delivered during the month under the auspices of the Young Women's Christian Association on the general topic "The Attractive Woman." In the auditorium building, fourteenth and Castro streets. The first lecture of the series was given last Sunday by Rev. Lapley McFar, pastor of the First Presbyterian church of Berkeley. It was well attended by the members of the association.

The addresses will be preceded by devotional services, which will give solemnity to the occasion.

The subjects for the September services, which will commence at 3 o'clock Sunday evening are as follows:

THE PROGRAM.

Sunday, 14th—"The Beauty of her Mental Life," Rev. F. L. Goodspeed.  
Sunday, 15th—"The Beauty of her Social Life," Mrs. F. E. Morgan.  
Sunday, 21st—"The Beauty of her Physical Life," Rev. J. E. Stuchel.

THE ATTRACTIVE WOMAN.

Thursday, 18th—"How She May Develop the Spiritual Life," Mr. Arthur L. Adams.  
Friday, 19th—"How She May Develop the Mental Life," Dr. E. H. Brown.  
Saturday, 20th—"How She May Develop the Social Life," Mr. E. C. B. Price.  
Friday, 26th—"How She May Develop Her Physical Life," Dr. Florence Sylvester.

Christian Scientists to Hear Good Lecture

A lecture on Christian Science is to be given this evening, at the Pavilion, Seventeenth and San Pablo avenue, by Dr. Francis J. Fluno, the Christian Scientist of this city. Dr. Fluno is well qualified to speak on this interesting subject, as he is a student of Mrs. Eddy and a member of the Board of Lecturership of the First Church of Christ, Scientist, in Boston. The lecture is free.

Teamster Pinned Under Heavy Box

While unloading his wagon about noon yesterday at the Santa Fe Depot, J. P. Kelly, a teamster, was pinned under a heavy box to the ground. The box, which was being moved to the pavement underneath its weight, Dr. Irwin treated the case at the Receiving Hospital and pronounced Kelly's condition serious.

# Girls Who Work

are especially exposed to the dangers of female organic disorders. Lydia E. Pinkham's Vegetable Compound has enabled thousands of girls to hold their positions.

Read what these girls say:

Phila., Pa.—"I can truly say that Lydia E. Pinkham's Vegetable Compound and Blood Purifier saved my life. When I was 14 years old I was regular and then it went away for a long time. I went to many doctors but none helped me, so I wrote to you for advice and followed your directions. I took the Vegetable Compound and Blood Purifier and now I am strong and healthy again. I cannot express my gratitude to you."—Lizzie Weber, 4152 N. Fairhill St., Phila., Pa.

Cleveland, Ohio.—"Having suffered for five long years with suppression and great pain every month, spending big money for doctors and getting no cure, I at last went to Mrs. Pinkham's medicine with little hopes, but found just what I needed. To-day I am regular and have no pain, thanks to your advice and Lydia E. Pinkham's Vegetable Compound."—Lizzie Steiger, 5510 Fleet Ave., S. E., Cleveland, Ohio.

Is it not reasonable to suppose that a medicine that did so much for these girls will do the same for any other girl who is suffering with the same troubles?

These testimonial letters are the genuine and truthful statements from honest people.

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## PROTEST AGAINST STREET OPENING

Residents of Magnolia Street object to Improving Thoroughfare One Block.

Protests against the opening of Magnolia street between Seventh and Eighth were made before the Council last night by Robert Callahan and Edwin Meese, backed by C. C. Callahan, J. W. Spencer, John Williams, J. McCarthy, Dora B. Miller and Mrs. J. E. Deansy, several of whom had signed a petition circulated by J. B. Franck asking that the street be put through, claiming that property in that section would be greatly benefited to the extent of gaining lower insurance rates.

Best Wyman, representing those who desired the street made continuous, declared that with an opening to the waterfront property values would be thereby enhanced.

### PROTEST AGAINST ASSESSMENT.

It was believed by several of those who first signed the petition for the opening that the work would be done without cost to them, but finding that they would be assessed for the improvement, they immediately withdrew their names.

It was further claimed by those who backed the petition that they had a frontage of more than 500 feet in favor of the opening, while the opposition had but 150.

### FAVORS THE OPENING.

"I am in favor of opening this street," said Cobbleddick, "as I am thoroughly acquainted with the situation, and we have had several experiences in cutting through streets in congested districts."

James A. Ballentine appeared to protest against the building of a sewer in Fourth and Prospect avenues and Union street, giving as his reasons that the benefit to be derived would be all out of proportion to the cost and would be unnecessary for many years.

TOO SPARSELY SETTLED.

"The district is too sparsely settled," said Ballentine, "and the sewer would be of great benefit to real estate firms and not of any necessity to the farmers. Upon this it would work a hardship."

The cost of the work has been estimated at \$25,000. Upon motion of Councilman Cobbleddick the matter was postponed two weeks.

## COUNCIL FAVORS S. P. FRANCHISE

Last Link of Track on Occidental Street Will Soon Be Laid.

Grant of a franchise to the Southern Pacific Company for track over 820 feet on Occidental street in North Oakland was made at a meeting of the City Council following that opening of the bid of \$100 offered by the railroad company.

The right to be granted by the council forms the last link in the system of electric suburban lines with which the company plans to equip Berkeley.

The railroad will enter Occidental street from Stanford avenue by a private right-of-way and will go north on Occidental street to the northern boundary line of Oakland. By private right-of-way it will connect with the southern end of Callaghan street in Berkeley, a franchise having already been granted in that city and work commenced in laying tracks.

### BID FOR SHORT LINK.

The company submitted a bid for the short link in the system amounting to \$100, giving \$500 bond for the performance of the work in conformance with the terms of the franchise grant. The bonds were approved and the ordinance making the grant to the transportation company was given its first reading.

The grant is for one of the few small sections not obtained by the Southern Pacific in its system of lines to connect with the ferry to San Francisco when the system shall be converted into electricity.

### Man Who Threatened President Is Freed

WASHINGTON, Sept. 7.—James Stricklin, who was called the White House in 1909, carrying a pair of 41-caliber revolvers of great length and demanding the President should help him in his search for a man who he said is "going to cheat him out of valuable oil and gold lands in Pike county, Ark.," is at last going back to Pike county, Ark., in the hands of a federal marshal, and the assurance of Governor Donnelly of Arkansas that Stricklin will not be allowed to come to Washington or go to Beverly, Stricklin is now at the Government Hospital for the Insane.

## COUNCIL DEFERS ACTION ON ORDINANCE FAVORING LOCAL MATERIAL AND MEN

Acrimonious Discussion Follows City Attorney Stetson's Report That Such Law Is Inoperative and Move Illegal

On the advice of City Attorney John W. Stetson that an ordinance providing that only Oakland workmen should be employed on municipal work and that all material should be purchased by the city from Oakland dealers as far as possible, would be imperative, action was deferred by the councilmen last night to the next regular meeting. An acrimonious discussion followed the motion to pass the ordinance, legal or illegal.

### SIT UP ALL NIGHT.

"I'm willing to sit up all night passing illegal ordinances if they will help Oakland any," declared Everhart. "I believe that the end sometimes justifies the means. The moral effect of this ordinance will be good and I am in favor of it."

Councilman Vose suggested that the matter should be put up to the union men in Oakland to find their wishes in the matter, but this was opposed by Councilman Ellsworth.

"We are a legislative body and are supposed to represent as a people of Oakland. I am opposed to asking one section to dictate the form of legislation."

On the motion of Councilman A. P. Stetson the matter was laid over to the next meeting as he wishes to find what form of legislation would be favored by the unions to protect local workmen.

### STETSON'S OPINION.

"To the Honorable, the Council of the City of Oakland:

"In obedience to your order, I have the honor to submit to you the following report on the ordinance proposed by the City Council, relative to the employment of local workmen and the purchase of material from local dealers."

"The ordinance now in the hands of your judiciary committee was prepared in obedience to your order, he same. So many legal obstacles were encountered in the framing of the ordinance that by leaving out all the provisions which would make the ordinance not the remainder constitutes an ordinance practically inoperative. It has, as we have seen, as an expression of the council, which is directed in the public offices. The ordinance provides that all contracts shall provide that none but local labor and material shall be used, but contracts are let pursuant to public notice and bidding. If the public notice and the specifications to which no local labor and material is to be used, but local labor and material is to be used, the bidder does not offer to make this a part of his agreement, then the bidder is not bound to accept this provision in this written contract since it would not be in accordance with the notice and bid of proposal."

### MEET OBSTACLES.

"If we undertake to place these conditions into public notice or specifications by ordinance or otherwise, then we are confronted by these provisions of the charter which require contracts to be let to the lowest bidder (Section 3 and following).

"The requirements that none but local labor and materials shall be used would tend to discriminate between bidders in such the same way that a specification calling for a patented article would discriminate and it has been decided that the latter requirement would make the contract invalid."

"Nicholson Pavement Company vs. Painter, 35 Cal. 699, where the statute of charter requiring a contract to be let to the lowest bidder, the lowest cash bidder is meant."

"Thompson vs. Board of Supervisors, 111 Cal. 553, the franchise law under consideration in that case is similar to the provisions of our charter and shows by analogy what the interpretation of our charter would be."

"This is, of course, on the ground that the price of the work was agreed on before the provision was inserted and that consequently the property owners did not suffer by the provision in the charter. It would have been otherwise if it had been inserted in the specifications or notice. If this method should be followed it would be dependent on the willingness of the bidder to have the provision inserted in his contract after he had been declared the successful bidder and its operation would depend, not on the law or ordinance, but mutual assent, because any contractor can invoke his right to have the charter enforced."

"Respectfully submitted,

"JOHN W. STETSON,"

"City Attorney."

### ACTION ON LICENSES.

On the recommendation of the license committee the following favorable action from the City Council last night:

That the following liquor licenses be granted: Henry Winking, northwest corner Eighth and Washington streets; J. C. Newman, East Twelfth and Washington streets; Julius Topp, 4407 Piedmont avenue; M. J. Kelley and W. H. Loughlin, 215-218 Telegraph avenue; A. Colmano, 551 Franklin street; Joseph Szilva, 527 Franklin street; Oriental Commercial Co., southeast corner Eighth and Washington streets; D. Marquis, 419 Fourteenth street; Lassen P. Perther, 413 Seventh street; J. P. Estey, northeast corner Seventh and Washington streets; George Beck, 475 Sixth street.

That J. P. Thirt be allowed to withdraw his application for sale license at the northwest corner East Fourteenth street and Grant street.

That Alvin Springer and A. Engelhardt, 1277 Broadway, be granted permission to withdraw their application for license.

### POLICE BULLETIN FUNDS.

The City Council accepted the recommendations of the auditing and finance committee and appropriated the sum of \$200 to cover the expense of printing the Police Bulletin for a period of six months.

The Board of Public Works was authorized to refund fees on building and electrical permits.

Five demands for salary were authorized to be paid out of the fund.

The following bills were passed to print:

Fixing the salary of the first and second chief engineers of the Fire Department.

Creating the office of chief nurse and defining the duties and fixing the salary of said office.

Appropriating the sum of \$3700 to pay a portion of the cost of sewerage Jefferson street between First and Fourteenth streets.

On the recommendation of the drainage committee the following bills were passed:

### PERMISSION GIVEN TO CHANGE ROUTE

Upon the petition of Rev. Griffith Griffiths, pastor of the Montecito Congregational Church at Elgin street and Market streets, the City Council last night ruled to allow the Peninsula Railroad Company to change the proposed route of its tracks in the city, so that the road will not pass by the church property, endangering the lives of small children attending the services on Sunday school.

Baker, representing the railroad company, stated that the company was willing to change their route so that the tracks would be laid on E. thirteenth and Curtis streets, away from the church property.

### \$500,000 Capital of Big Oil Company

BAKERSFIELD, Sept. 7.—The Indian Wells Oil Company, capital \$500,000, with main offices in San Francisco, died articles of incorporation yesterday. The directors are Robert A. Dean of San Francisco, A. H. Collins of Oakland, William A. Bokerlein of Berkeley, B. Bamberger of San Francisco and A. Darcy Van Bokerlein of San Francisco. The King-Albin Oil Company, capital \$250,000, filed articles of incorporation. San Francisco being named as the principal place of business. The incorporators and directors are David J. Grady of San Francisco, W. H. Coby of Berkeley, and W. E. Coby, also of Berkeley.

"This is, of course, on the ground that the price of the work was agreed on before the provision was inserted and that consequently the property owners did not suffer by the provision in the charter. It would have been otherwise if it had been inserted in the specifications or notice. If this method should be followed it would be dependent on the willingness of the bidder to have the provision inserted in his contract after he had been declared the successful bidder and its operation would depend, not on the law or ordinance, but mutual assent, because any contractor can invoke his right to have the charter enforced."

"Respectfully submitted,

"JOHN W. STETSON,"

"City Attorney."

### ACTION ON LICENSES.

On the recommendation of the license committee the following favorable action from the City Council last night:

That the following liquor licenses be granted: Henry Winking, northwest corner Eighth and Washington streets; J. C. Newman, East Twelfth and Washington streets; Julius Topp, 4407 Piedmont avenue; M. J. Kelley and W. H. Loughlin, 215-218 Telegraph avenue; A. Colmano, 551 Franklin street; Joseph Szilva, 527 Franklin street; Oriental Commercial Co., southeast corner Eighth and Washington streets; D. Marquis, 419 Fourteenth street; Lassen P. Perther, 413 Seventh street; J. P. Estey, northeast corner Seventh and Washington streets; George Beck, 475 Sixth street.

That J. P. Thirt be allowed to withdraw his application for sale license at the northwest corner East Fourteenth street and Grant street.

That Alvin Springer and A. Engelhardt, 1277 Broadway, be granted permission to withdraw their application for license.

### POLICE BULLETIN FUNDS.

The City Council accepted the recommendations of the auditing and finance committee and appropriated the sum of \$200 to cover the expense of printing the Police Bulletin for a period of six months.

The Board of Public Works was authorized to refund fees on building and electrical permits.

Five demands for salary were authorized to be paid out of the fund.

The following bills were passed to print:

Fixing the salary of the first and second chief engineers of the Fire Department.

Creating the office of chief nurse and defining the duties and fixing the salary of said office.

Appropriating the sum of \$3700 to pay a portion of the cost of sewerage Jefferson street between First and Fourteenth streets.

On the recommendation of the drainage committee the following bills were passed:

### PERMISSION GIVEN TO CHANGE ROUTE

Upon the petition of Rev. Griffith Griffiths, pastor of the Montecito Congregational Church at Elgin street and Market streets, the City Council last night ruled to allow the Peninsula Railroad Company to change the proposed route of its tracks in the city, so that the road will not pass by the church property, endangering the lives of small children attending the services on Sunday school.

Baker, representing the railroad company, stated that the company was willing to change their route so that the tracks would be laid on E. thirteenth and Curtis streets, away from the church property.

### \$500,000 Capital of Big Oil Company

BAKERSFIELD, Sept. 7.—The Indian Wells Oil Company, capital \$500,000, with main offices in San Francisco, died articles of incorporation yesterday. The directors are Robert A. Dean of San Francisco, A. H. Collins of Oakland, William A. Bokerlein of Berkeley, B. Bamberger of San Francisco and A. Darcy Van Bokerlein of San Francisco. The King-Albin Oil Company, capital \$250,000, filed articles of incorporation. San Francisco being named as the principal place of business. The incorporators and directors are David J. Grady of San Francisco, W. H. Coby of Berkeley, and W. E. Coby, also of Berkeley.

## PROTEST AGAINST STREET OPENING

Residents of Magnolia Street object to Improving Thoroughfare One Block.

Protests against the opening of Magnolia street between Seventh and Eighth were made before the Council last night by Robert Callahan and Edwin Meese, backed by C. C. Callahan, J. W. Spencer, John Williams, J. McCarthy, Dora B. Miller and Mrs. J. E. Deansy, several of whom had signed a petition circulated by J. B. Franck asking that the street be put through, claiming that property in that section would be greatly benefited to the extent of gaining lower insurance rates.

Best Wyman, representing those who desired the street made continuous, declared that with an opening to the waterfront property values would be thereby enhanced.

### PROTEST AGAINST ASSESSMENT.

It was believed by several of those who first signed the petition for the opening that the work would be done without cost to them, but finding that they would be assessed for the improvement, they immediately withdrew their names.

It was further claimed by those who backed the petition that they had a frontage of more than 500 feet in favor of the opening, while the opposition had but 150.

### FAVORS THE OPENING.

"I am in favor of opening this street," said Cobbleddick, "as I am thoroughly acquainted with the situation, and we have had several experiences in cutting through streets in congested districts."

James A. Ballentine appeared to protest against the building of a sewer in Fourth and Prospect avenues and Union street, giving as his reasons that the benefit to be derived would be all out of proportion to the cost and would be unnecessary for many years.

TOO SPARSELY SETTLED.

"The district is too sparsely settled," said Ballentine, "and the sewer would be of great benefit to real estate firms and not of any necessity to the farmers. Upon this it would work a hardship."

The cost of the work has been estimated at \$25,000. Upon motion of Councilman Cobbleddick the matter was postponed two weeks.

## COUNCIL FAVORS S. P. FRANCHISE

Last Link of Track on Occidental Street Will Soon Be Laid.

Grant of a franchise to the Southern Pacific Company for track over 820 feet on Occidental street in North Oakland was made at a meeting of the City Council following that opening of the bid of \$100 offered by the railroad company.

The right to be granted by the council forms the last link in the system of electric suburban lines with which the company plans to equip Berkeley.

The railroad will enter Occidental street from Stanford avenue by a private right-of-way and will go north on Occidental street to the northern boundary line of Oakland. By private right-of-way it will connect with the southern end of Callaghan street in Berkeley, a franchise having already been granted in that city and work commenced in laying tracks.

### BID FOR SHORT LINK.

The company submitted a bid for the short link in the system amounting to \$100, giving \$500 bond for the performance of the work in conformance with the terms of the franchise grant. The bonds were approved and the ordinance making the grant to the transportation company was given its first reading.

The grant is for one of the few small sections not obtained by the Southern Pacific in its system of lines to connect with the ferry to San Francisco when the system shall be converted into electricity.

### Man Who Threatened President Is Freed

WASHINGTON, Sept. 7.—James Stricklin, who was called the White House in 1909, carrying a pair of 41-caliber revolvers of great length and demanding the President should help him in his search for a man who he said is "going to cheat him out of valuable oil and gold lands in Pike county, Ark.," is at last going back to Pike county, Ark., in the hands of a federal marshal, and the assurance of Governor Donnelly of Arkansas that Stricklin will not be allowed to come to Washington or go to Beverly, Stricklin is now at the Government Hospital for the Insane.
